Introducing the Combi Control – an innovative Toshiba heat pump controller you operate with your mobile phone. The easiest way to use Combi Control is with a smartphone, using the Combi Control app you can download from the Google Play store or App Store, just search for "Combi Control".

Combi Control enables you to easily adjust the mode, room temperature and fan speed of a heat pump. Combi Control can also inform you about low room temperature, power failures and service intervals.

Toshiba heat pump control by mobile phone

Combi Control

Saves money

Cut your heating costs! Warm up your house for the period when you are at home and let it cool down when everyone's away.

Makes life comfortable

Instead of driving all the way home to adjust the heat pump you can send your commands by mobile phone, no matter where you are.

Easy to set up

Just install the SIM card to your Combi Control, put the Combi Control anywhere near your heat pump, and you are ready!

Combi Control
